WP engine®

Beyond managed hosting.

The agility, performance, intelligence, and integrations that let sites shine.

Hosting.
Reliable AWS and GCP architecture that keeps you online.

Security.
Protect your sites with real-time threat detection.

Optimization.
Deliver scalable, performant, WordPress digital experiences.

In the "mobile-first" era we live in, hosting and managing websites can be complicated and time consuming, taking your focus away from your real business. You need the best platform for developing and hosting fast, reliable, and secure WordPress sites in order to bring your vision to life.

The best choice for managed WordPress hosting.

SPEED	SECURITY	SUPPORT
■ 38% average improvement in site speed post-migration to WP Engine*	■ Dedicated security team focused on security engineering, governance, and compliance	■ Migration support, Go-live management, and post-go-live performance diagnostics
■ Global site performance with fully-managed CDN	■ Mitigated vulnerabilities with managed WordPress Core updates and security patching	■ World-class 24/7 support with an average response time of < 3 minutes
■ Best-in-class infrastructure deployed on AWS and Google Cloud Platform	■ Business continuity, revenue protection, and app-level security with Global Edge Security from CloudFlare	■ Four WordPress Core contributors on staff and a global team of recognized subject matter experts
■ Globally-dispersed edge servers for caching static assets closer to end user		

* (average site speed, based on page load testing, across 13,000 migrated websites – 2019)
  4-6x faster performance compared to other platforms thanks to WP Engine EverCache (2019)
